Adding film emulations to the Olympus E-PM2 using custom firmware

Below are some additional optional emulations you can apply in camera to your shots. The first column is the default "Natural" profile in camera.

Natural Standard mode	**Portra 400** Menu name: Portra	**Ektachrome 100** Menu name: Ektachrome	**Fuji Pro 400H** Menu name: Pro 400H	**Kodachrome 64** Menu name: Kodachrome	**Vision3 250D** Menu name: Vis 250D	**Velvia 100** Menu name: Velvia	**Superia X-tra 400** Menu name: Superia 400
							
Natural	Portra 400	Ektachrome 100	Fuji Pro 400H	Kodachrome 64	Vision3 250D	Velvia 100	Superia X-tra 400
							
Natural	Portra 400	Ektachrome 100	Fuji Pro 400H	Kodachrome 64	Vision3 250D	Velvia 100	Superia X-tra 400
							
Natural	Portra 400	Ektachrome 100	Fuji Pro 400H	Kodachrome 64	Vision3 250D	Velvia 100	Superia X-tra 400
