Adding film emulations to the Olympus E-PM2 using custom firmware

Below are some additional optional emulations you can apply in camera to your shots. The first column is the default "Natural" profile in camera.

Natural	Portra 400	Ektachrome 100	Fuji Pro 400H	Kodachrome 64	Vision3 250D	Velvia 100	Superia X-tra 400
Standard mode	Menu name: Portra	Menu name: Ektachrome	Menu name: Pro 400H	Menu name: Kodachrome	Menu name: Vis 250D	Menu name: Velvia	Menu name: Superia 400
